

**Ammattiopisto**  
  
**Vocational College**

**Luovi Vocational College** provides upper secondary and adult education and training nationwide. Luovi is the largest vocational special education institution in Finland and it is spread across 24 sites. The number of staff is 890. There are 1470 students with special needs in initial VET. Reasons may include mental health and social problems, minor developmental delays, reading and writing difficulties and developmental disorders. The students of Luovi need individual support and study guidance.

Luovi provides initial VET in seven fields of study: Cultural sector, Natural sciences, Natural resources and the environment, Tourism, catering and domestic services, Technology, communication and transport and Social sciences, business and administration. In addition Luovi provides preparatory training.

The guidelines for European cooperation activities are defined in the International strategy of Luovi. The objective of international activities is to increase student and staff skills and capabilities. Practical measures include support for student and staff exchanges, development of education and training, provision of language and cultural training and participation in international projects as well as creating opportunities to advance reciprocal mobility. Luovi has a lot of experience in European projects; Leonardo da Vinci, Comenius, Youth and Grundtvig.
